Presents

ADVANCED NUTRITION PRINCIPLES, NUTRITIONAL INTERVENTIONS & NUTRACEUTICAL APPLICATIONS

IN CLINICAL PRACTICE

FOR ALL HEALTH PROFESSIONALS

**February 26-27, 2010
Orlando, FL**

Buena Vista Palace
1900 Buena Vista Drive
Lake Buena Vista, FL 32830

Sponsored by The Medical Educator Consortium

Proudly Presents

Learn and discuss nutrition from nEI faculty:

- Nutrition Principles for the Clinician
- Free Radicals, Oxidant Stress and Antioxidants In Health and Disease
- Inflammation & Nutrition
- Insulin Resistance, Metabolic Syndrome and Principles of An Effective Weight Management System
- Nutritional genomics, nutrigenetics: scientific basis and applications
- Nutraceutical Regimens – Parts 1 and 2
- Case Studies
- Nutraceutical Research: Challenges and Presentations
- Educating and Motivating Patients
- Quality Control & Regulatory Issues In the Nutraceutical Industry

Upon completion participants will be able to:

1. Recognize the role of nutrient supplementation to achieve optimal health.
2. Learn what the new research shows to support the role and importance of bioflavonoids and other antioxidants in health and disease management.
3. Understand the scope and impact of the obesity epidemic, and how low glycemic eating along with appropriate supplementation can reach the weight management goals of a patient.
4. Discover the role and usefulness of nutritional genetics in customizing lifestyle and nutritional recommendations for patients; appreciate the latest basic science and clinical research supporting the use of nutritional genetics.
5. Learn how nutritional approaches can be integrated with conventional medicine for patients.
6. Understand the regulatory environment and quality control issues in the nutraceutical industry.
